	Cifarelli Mist Blower (16l capacity)	3ml/ 1L	48ml/15 l of water	5 - 7 tanks 240 - 336ml

Fungicide Recommendation – For Nurseries

- Spray following fungicides alternatively in 7-day intervals to the nursery plants
 - Carbendazim (50% WP) in 2g/l concentration
 - Hexaconazole (50 g/l SC) in 2ml/l concentration
- The frequency of application should be adjusted according to the weather condition and the severity of the disease
