

JOURNAL OF THE RUBBER RESEARCH INSTITUTE OF SRI LANKA

Vol. 90

2010

CONTENTS

High density banana/rubber intercrops have no negative effects on component crops under the smallholder conditions <i>A M W K Senevirathna, C M Stirling, V H L Rodrigo, P D Pathirana and P K W Karunathilake</i>	1
<i>Feasibility of rubber (Hevea brasiliensis Muell. Arg.) cultivation in Eastern province of Sri Lanka with the peasant community</i> <i>S M M Iqbal, V H L Rodrigo and P K W Karunathilake</i>	18
Local knowledge in rubber (<i>Hevea brasiliensis</i>) farming systems in Sri Lanka: Applications and constraints <i>A M W K Senevirathna, P D Pathirana, V H L Rodrigo and F L Sinclair</i>	31
Litter accumulation from <i>Mucuna bracteata</i> cover crop and its effects on some soil chemical properties in rubber plantations <i>Surani Chathurika, Lalani Samarappuli and Ranjith B Mapa</i>	49
Susceptibility of different leaf stages of <i>Hevea</i> to <i>Corynespora cassiicola</i> <i>T H P S Fernando, C K Jayasinghe, R L C Wijesundera and D Siriwardena</i>	58
<i>Profit efficiency of smallholder rubber farmers in Kegalle, Kalutara and Ratnapura districts</i> <i>Jagath Edirisinghe, Wasana Wijesuriya and C Bogahawatte</i>	64
